**STYVE FAMILY BOOK**  
*This book belonged to my Grandmother, Isabel Styve Lembke, and was used as the source for most of the family genealogy charts that I compiled in 1978.*  
*The book is typed on a light green paper. There was no title or preface page. So we do not know who did the research or did the typing. The Styve family had reunions for many years – usually in the Albert Lea area. Much of the information probably came from family members as oral history. Isabel was elected as "Historian" at those reunions.*  
*The Chronology stops in 1949.*
